NEWSLETTER JULY 2017

1. Be green! Fii Verde!

The future is what we do with our present and we are not aware of it from there arose “Be green” it was ours Workshop about how change our present to have a better future.

We went to the library and 30 students participated in the activity. The main theme was about 3 R: Reduce, Reuse and Recycling.

One of the exercises that most liked the students was to build our waste the future in which our descents would live.

2. Registration and share flyers for Dragaciclism Club

The schools are in vacation, but Green life should always continue, and we noticed that a lot of kids have bicycles, so we thought we can make them have fun, improve their competitive spirit, that's why we created our cycling club, and we named it Dragaciclism club, we created the poster, and posted on our Facebook page that we will be every day in the central park to register kids to our club, and luckily we had more than 20 members.

2. Ride Right - Dragaciclism First Activity

The first event of Dragaciclism club was at 17 July, the quest "Ride right". 13 people took part in it. The task of the participants was to find a checkpoint with the help of a map and answer correctly questions about the rules of cycling and rules of the road!

In Romania is still no development infrastructure for cyclists, so each cyclist is a participant in the road traffic and must follow the rules and be very careful.

Erasmus+

4. Fast and Furious - Dragaciclism Second Activity

Fast and furious was a great experience in Dragaciclism Club! We had 21 participants from 8 years old to 15 years old. We put some obstacles in the race area. the contestants had to pass these obstacles and finish half a fast.

We have a time schedule for this. And this chart shows how far ahead of the starting point of the gore competitors the finish point. and we have identified the first one looking at this chart.

5. Joc de orientare - Dragaciclism Third Activity

Orientation game was another “Dragaiclism” activity. We separate our participants in two different age category, each group had different maps.

The point of activity was to find checkpoints with letters on the map and collect all letters in order to find word. We set time and revealed 2 winners from each group.
