NEWSLETTER MAY 2017

1. European youth week

In first week of may it was the European youth week. we prepared workshops in Liceul Tehnologic “Bratianu”, those workshops were about empowering young people and involve them in different aspects of life.

We made them focus on the strength points that they have and showed them in an activity how those characteristics can be a life-jacket when the conditions are not good,we also remind them that even though every individual have different skill that he can share with others, there is also a lot to learn

3. Starting with sports activities in Scoala Gimnaziala Nicolae Balcescu

To have a healthy body we have to exercise and do sports, but for a lot of children it is boring because it was practiced in a very strict way, that is why we tried to connect exercising and sports with fun, by creating telematch, to develop their teamwork, and competitiveness.

We did this for more than one week with several classes and the kids were very happy, we received a lot of friend requests on facebook
